

# FRANKE TOBEY JONES

## Meet Resident Lee Fisher

When Lee and her husband, Hal, who has since passed away, moved here 17 years ago she says there were two main reasons they chose FTJ.

One, she and her husband were tired of taking care of their home and gardens. At FTJ they moved into a beautiful duplex and the gorgeous gardens are taken care of for them. They were able to spend their time at FTJ having fun and traveling too.

Secondly, they chose FTJ because we're a Continuing Care Retirement Community and healthcare was only steps away. You never know if and when you'll need health care, and after they moved here in 1995 Hal needed care. He moved to the FTJ Healthcare Center and could still spend plenty of time with Lee and have meals with her as well. Lee says "FTJ is the best for caring for illnesses...there is none other like it. The ease of getting to the Healthcare Center was great and the staff was wonderful."

Lee loves that fact that "there are so many fascinating people that live here. People who have done so much during their lives and are fun to talk with. Plus FTJ has wonderful food, a Bistro Café, many activities and I've made so many friends."

*"FTJ is the best for caring for illnesses...there is none other like it. The ease of getting to the Healthcare Center was great and the staff was wonderful."*
