## NEW ~ HEALTH CARE/MEMORY CARE

### Opening Early 2019

#### Ground Breaking

After careful planning, we broke ground in September 2017 for a health care and memory care building, and will be breaking ground in early 2018 for our new “Bristol View” independent living apartment building. Both buildings are expected to be complete in early 2019.

“This is an exciting new chapter in our mission to make a difference in the lives of seniors,” Franke Tobey Jones CEO, Mark Gustafson said. “It is important to us to provide a range of services, not only for the residents and families who call FTJ home, but for the surrounding community that has become so much a part of our culture.”

#### Health Care and Memory Care Building Design

The new health care and memory care building will be constructed on a portion of our front lawn. It has been designed to look more like large homes rather than an institutional building. The architecture will also remain in our classic Tudor Style, so it will be a natural extension of our entire campus look and feel. The memory care community will be housed on the lower portion of the building with lovely secure, open access courtyards, and the health care center will be located on the top floor of the building. When complete, this building will be home to 43 skilled nursing residents and 28 memory care residents.

#### Health Care Center (skilled nursing)

- ⇒ Looks and feels like home
- ⇒ 43 private rooms with private bathrooms
- ⇒ Dining room and activity rooms
- ⇒ Gathering Areas
- ⇒ Outdoor patios
- ⇒ Therapy Room

#### Memory Care Community

- ⇒ Increased memory support for 28 residents
- ⇒ Looks and feels like home
- ⇒ Private and “Smart Shared” rooms with private bathrooms
- ⇒ Dining and activity rooms, private gathering areas
- ⇒ Secure, open access outdoor patios
- ⇒ Dining and activity rooms

# New Health Care / Memory Care Building

## What Will Make this Building Special?

What will set our new health care and memory care community apart from others? One of the main reasons is because it will not look or feel like your standard institutional skilled nursing facility where you walk down a long corridor with rooms on both sides. This will not be your “grandmother’s nursing home.” Both the health care center and memory care community are designed with small “pods” of rooms clustered around open living spaces where residents and family can enjoy quality time together. Nearly all the rooms will be private with private bathroom/shower, and you will not see medication carts in the hallways nor your typical nursing station. Each resident room will house a locked cabinet where the resident’s medications will be kept, and nurses, CNAs and other staff will be free to engage with residents throughout the day in the various living rooms, dining rooms, activity rooms and other gathering spaces. Meals will be prepared on-site and served in lovely dining rooms. There will also be outdoor patios, lots of windows, plants and water features to provide a home-like feel.

The memory care community will have a similar look and feel as the health care center, and will also provide secure, open access outdoor courtyards where residents will be free to enjoy the sunshine, fresh air, gardening beds and more.

Franke Tobey Jones has been working with Marathon Development, Inc., of Bellevue, WA to provide master planning services. LRS Architects of Portland, OR has provided the architectural design. BPCI of Puyallup, WA has been engaged as the project General Contractor.

## Capital Campaign

Our first ever Capital Campaign is underway to help support this much needed, innovative building for local seniors. To learn more, or support the campaign, visit [www.FrankeTobeyJones.com](http://www.FrankeTobeyJones.com)
